SELECTIVE SERVICE REQUIREMENT

PURPOSE
This policy provides the guidance and establishes the procedures regarding Selective Service registration requirements for participation in Workforce Innovation and Opportunity Act (WIOA) Title I funded services. This policy applies to the Workforce Alliance of the North Bay (Alliance) and its service providers.

SCOPE
Workforce Innovation and Opportunity Act Title I contracted Service Providers

RESPONSIBLE PARTY
Workforce Alliance of the North Bay
Regional Workforce Development Board

DEFINITIONS
Italic – Definition (list definitions alphabetically)

POLICY
I. Males who are subject to the registration requirements of the Military Selective Service Act (MSSA) must have complied with these requirements to be eligible for participation in WIOA funded programs and services. Under WIOA Section 189(h), the U.S. Secretary of Labor is required to ensure that each individual participating in a WIOA program, or receiving any assistance under WIOA Title I, has not violated Section 3 of the MSSA. This section requires that every male residing in the United States (citizen or non-citizen) must register with Selective Service between their 18th and 26th birthday.

II. All programs and services established or receiving assistance under WIOA Title I must comply with the Selective Service registration requirements. These requirements apply to both formula
and discretionary grants awarded by the Department of Labor (DOL). They do not apply to programs funded or solely authorized by the Wagner-Peyser Act.

III. Selective Service Registration Requirements

A. Males born on or after January 1, 1960, are required with the Selective Service within 30 days of their 18th birthday and up to, but not including, their 26th birthday. This includes the following males:

1. U.S. Citizens
2. Veterans discharged before their 26th birthday
3. Non-U.S. citizens, including undocumented immigrants, legal permanent residents, and refugees, who take up residency in the U.S. prior to their 26th birthday
4. Dual national of the U.S. and another country, regardless of whether they live in the U.S.

B. Selective Service registration is not required for the following male U.S. citizens:

1. Males who are serving in the military on full-time active duty
2. Males attending the service academies
3. Disabled males who were continually limited to a residence, hospital, or institution
4. Males who are hospitalized, institutionalized, or incarcerated are not required to register during their confinement; however, the must register within 30 days after being released if they have not yet reached their 26th birthday.
5. Male veterans discharged after their 26th birthday.

C. Selective service is not required for the following male non-U.S. citizens:

1. Non-U.S. males who entered the U.S. for the first time after their 26th birthday. Acceptable forms of supporting documentation include the following:
   a) Date of entry stamp in passport
   b) I-94 with date of entry stamp on it
   c) Letter from the U.S. Citizenship and Immigration Services indicating the date the male entered the U.S. presented in conjunction with documentation establishing the male’s age.
2. Non-U.S. males who entered the U.S. illegally after their 26th birthday. They must provide proof that they were not living in the U.S. from age 18 through 25.
3. Non-U.S. males on a valid non-immigrant visa.

Note that the requirement for transsexual, transgendered, and intersex individuals to register with the Selective Service depends upon the gender recorded on their birth certificate. According to the Selective Service website, “Individuals who are born female and have a gender change are not required to register. U.S. citizens or immigrants who are born male and have a gender change are still required to register.”

The above list of Selective Service registration requirements is not exhaustive. Additional information regarding these requirements, including a Quick Reference Chart (https://www.sss.gov/Portals/0/PDFs/WhoMustRegisterChart.pdf) showing who must register, can be found on the Selective Service website (http://www.sss.gov/).
IV. Acceptable Documentation

A. In order to be eligible to receive WIOA-funded services, all males born on or after January 1, 1960, must present documentation showing compliance with the Selective Service registration requirements.

B. Acceptable documentation to determine a person’s eligibility for WIOA Title I programs include the following:
   1. Selective Service acknowledgement letter
   2. Report of Separation form (Form DD-214). Should be used only if veteran was discharged after his 26th birthday.
   3. Screen printout of the Selective Service Verification site (https://www.sss.gov). For males who already registered, this website can be used to confirm their Selective Service number as well as the date of registration, by entering a last name, social security number, and date of birth.
   4. Selective Service registration card
   5. Selective Service verification form (Form 3A)

V. Registration Requirements for Males Under 26

A. Before being enrolled in WIOA-funded services, all males who are not registered with the Selective Service and have not reached their 26th birthday must register through the Selective Service website. If a male turns 18 while participating in WIOA-funded services, registration with Selective Service must be completed no later than 30 days after he becomes 18 in order to continue to receive WIOA-funded services. If a male under the age of 26 refuses to register with Selective Service, WIOA-funded services must be suspended until he registers.

VI. Non-Registration by Males 26 and Older

A. Alliance service providers will request a Status Information Letter from those potential participants who are males 26 or older who did not register with the Selective Service before making a determination of knowing and willful failure to register. Before enrolling in WIOA-funded services, all males 26 and older must provide one of the following:
   1. Documentation showing they were not required to register.
   2. If they were required to register, documentation establishing that their failure to register was not knowing or willful.

VII. Status Information Letter

A. An individual may obtain a Status Information Letter from the Selective Service if one of the following applies:
   1. The individual believes he was not required to register.
   2. The individual did register but cannot provide the appropriate documentation.

B. The Status Information Letter Request form and instructions can be accessed through the Selective Service website (https://www.sss.gov/forms). When the individual requests a Status Information Letter, they will need to describe, in detail, the circumstances that prevented him from registering (e.g., hospitalization, incarceration, or military service) and
provide documentation of those circumstances. The documentation should be specific as to the
dates of the circumstances.

C. If the Status Information Letter indicates that an individual was not required to register for
the Selective Service, then he is eligible to enroll in a WIOA-funded service. If the Status
Information Letter indicates that the individual was required to register and did not register,
he is presumed to be disqualified from participation in WIOA-funded activities and services
until it can be determined that his failure to register was not knowing and willful. All costs
associated with grant-funded services provided to non-eligible individuals may be
disallowed.

VIII. How to Determine “Knowing and Willful” Failure to Register

A. If the individual was required but failed to register with the Selective Service, as determined
by the Status Information Letter or by his own acknowledgement, the individual may only
receive services if he establishes that the failure to register was not knowing and willful. The
service provider that enrolls individuals in WIOA-funded activities, and is thereby authorized
to approve the use of WIOA grant funds, is the entity responsible for evaluating the
evidence presented by the individual and determining whether the failure to register was
knowing and willful.

IX. Documentation

A. Evidence presented may include the individual’s written explanation and supporting
documentation of his circumstances at the time of the required registration and the
reason(s) for failure to register. The individual should be encouraged to offer as much
evidence and in as much detail as possible to support his case. The following are examples
of documentation that may be of assistance in making a determination in these cases:

1. Service in the Armed Forces – Evidence that a male has served honorably in the U.S.
   Armed Forces, such as a Form DD-214 or his Honorable Discharge Certificate. These
documents serve as evidence that his failure to register was not knowing and willful.

2. Third Party Affidavits – Affidavits concerning reasons for not registering from parents,
teachers, employers, doctors, and others may help subrecipients or contractors in
making a determination regarding willful and knowing failure to register.

3. Self-Attestation – Signed statement that explains why the individual’s failure to
   register was not knowing and willful. The Selective Service Failure to Register Self-
   Attestation Statement should be utilized for Self-Attestation documentation.

   Please note, self-attestation may serve as sufficient evidence when other options of
documentation or third party corroboration are not available.

X. Model Questions

A. In order to establish consistency regarding the implementation of the requirement,
subrecipients or contractors should use the following questions as a model for determining
whether a failure to register is knowing and willful.

B. To determine whether the failure was “knowing,” authorized organizations should ask the
following:

1. Was the individual aware of the requirement to register?

2. If the individual know about the requirement to register, was he misinformed about
   the applicability of the requirement to him (e.g., veterans who were discharged before
   their 26th birthday were occasionally told that they did not need to register)?
3. On which date did the individual first learn that he was required to register?

4. Where did the individual live when he was between the ages of 18 and 26?

5. Does the status information letter indicate that Selective Service sent letters to the individual at that address and did not receive a response?

C. To determine whether the failure was “willful,” authorized organizations should ask the following:

1. Was the failure to register done deliberately and intentionally?

2. Did the individual have the mental capacity to choose whether to register and decided not to register?

3. What actions, if any, did the individual take when he learned of the requirement to register?

XI. Results of Findings

A. If an authorized organization determines that an individual’s failure to register with the Selective Service was not knowing and willful and the individual is otherwise eligible, services may be provided. However, if the authorized organization determines that evidence shows that the individual’s failure to register was knowing and willful, WIOA services must be denied. Individuals who are denied services must be advised of available grievance procedures. Authorized organizations must keep documentation related to evidence presented in determinations on Selective Service.

POLICY UPDATE HISTORY

April 10, 2019 – New Policy

INQUIRIES

Questions regarding this policy can be sent to the Operations Unit.
